

Fox 43 Comes To Class

March 4, 2009 - Mike Niklauski, Fox 43 Cameraman, talks to high school students at New Hope Academy Charter School. He was a guest speaker for the school's Video Club.

The students were very curious about his job and asked about the best events he ever taped. "I've been assigned to Presidential Inaugurations, the World Series and other national events," Niklauski said.

Jah'licia Cruz, a ninth grader at the school, asked how you find out about jobs at the TV station. She learned that it's best to check their website and be prepared to do other jobs in the studio so you can work your way up.

Students will get a chance to produce their own videos and DVD's. Their work will become part of their Digital Portfolios that they take with them when they graduate.

"I hope this hands on experience will develop into an entrepreneurial focus," said Isiah Anderson, Managing Officer. Many of the club's students have a digital media focus, and the school plans to match their interests by providing the technology to help them reach their goals.

New Hope Academy Charter School also offers Chorus, Newspaper, Rhythm, Step/Dance and Chess/Board Games for students' interests.

Alan Johnson and Harold Torres try out the thirty-pound TV camera.
